**Project work return guide:**

1. Make sure that your project is working
2. Remember to fill this in **main.c !!**

```
/************************************************************************
Name:
Student number:

Name:
Student number:

Name:
Student number:

Tick boxes that you have coded

Led-matrix driver       Game            Assembler
    []                   []              []

Brief description:

*************************************************************************/
```

3. Right-click **Embedded_Exercise_normal** and click Export
4. Click General and choose Archive File then click Next
5. Choose only files in src

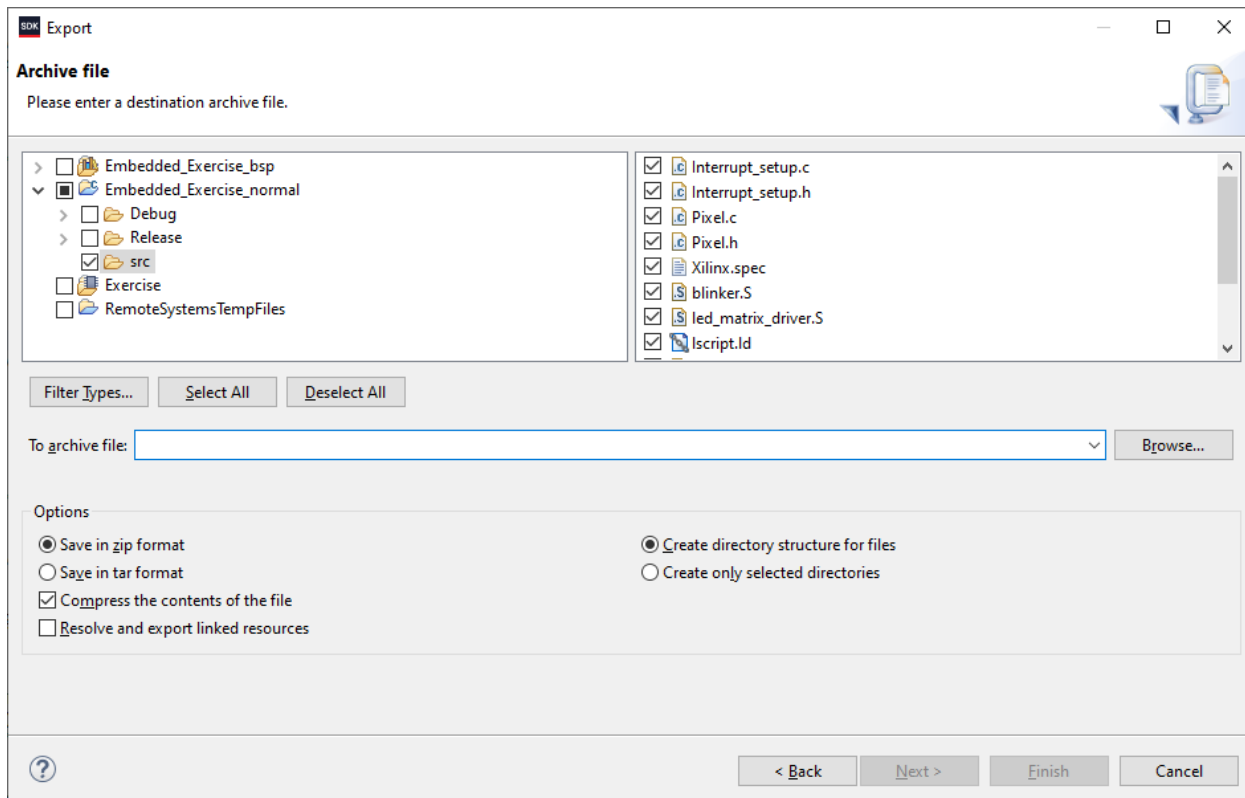

6. Browse to choose where to save
7. Save with following naming style (R=revision):
   *JoSu_project_work_<surname1>_<surname2>_<surname3>_R<x>*

8. Return your zip to Moodle (1 return/group)
9. Take a video of your project (matrix working or playing the game and/or button-LED blinker working) while showing your student card in the video. Zip and upload the video to Moodle as well. **The return box will be shown at the last week of the exercise.**
